

Do not lessen the Indiana Telephone Privacy Law. This Law has made a huge difference to my household. Before the Law it was not uncommon for us to receive 20 calls a day from telemarketers. Now since thanks to the Indiana Telephone Privacy Law we receive on average zero calls per day. The telemarketers would start calling the house in the morning, but the worse was the 4-6 calls every night from dinner time until around 10 PM. My job requires that I am available to respond to emergency calls from the University. Not answering the telephone is not an option. If the Law is lessened the calls start interrupting my quiet time at home again, my job is stressful enough without this constant invasion of my privacy.
